Market Position

U-23

Fitted with full HD 1920 x 1080 resolution and LED backlighting, the U-23 delivers exceptional power efficiency and attains astonishing image clarity. The spacious 23” screen of this fine display promises to help users work productively. Its elegant exterior design is rightfully supplemented by the protection of NeoV™ Optical Glass. Built-in HDMI input, side-mount headphone jack, USB port and built-in stereo speakers bring many multimedia possibilities. A balanced combination of function and form, it is crafted specifically for multiuser public places—from the home to offices and schools.

Selling Points

Product Features (Page 1)

The Right Display

Featuring Full HD 1920 x 1080 resolution and LED backlights, the U-23 offers excellent power efficiency and superb image clarity with uncompromised productivity, designed perfectly for home and offices, schools and multi-user public places

Environmental Friendly LED Backlights

With worldwide attention of carbon reduction and energy saving, the U-23 features LED backlights not only protect the environments but also save the electricity bills.

Designed to Care the Earth

Designed to meet high environmental standards, U-Series adopts recyclable materials inside and outside from production to disposal.

Product Features (Page 2)

Built-in HDMI for High Definition Connectivity

Inbuilt HDMI input allows high digital image quality and superb colour consistency, making the U-23 flexible to be paired with Full HD multimedia devices

NeoV™ Optical Glass

The exclusive multi-layer coating delivers superb colour definition and clearer text

Panel Protection

NeoV™ Optical Glass's level 6 of Mohs strength and 9H scale of coating hardness bring the panel additional protection from scratch

Greater Eye Comfort

NeoV™ Optical Glass technology creates balanced colours which largely improve the eye comfort

Product Features (Page 3)

Reliable Performance

Ultra high 1,000,000:1 contrast ratio renders crisp image contrast and definition

Contemporary Design

Simple and smart exterior helps the display stand out of the crowd

Intuitive On-Screen-Display with Settings Lock

Friendly and multi-language OSD makes adjusting display setting quick and convenient. Smart key lock function ensures screen settings won't be accidentally changed

Auto-adjustment

Automatically adjusts screen setting for an optimal image without changing manually

• New OSD design provides more convenience to adjust setting

Product Features (Page 4)

Wear-resistant Touch Sensor

Unlike mechanical buttons prone to wear and tear from heat and moisture, U-23's touch sensor design to ensure longer product life

Convenient USB Connection Design

Side-mounted USB port is available for easy connection of digital devices such as USB flash card, digital camera, or memory card reader

Integrated Multimedia Speakers

Two built-in stereo speakers provide an instant and enhanced audio-visual experience

Accessible Headphone Jack

Side-mount headphone jack allows convenient independent listening without being interrupted

• Vandal-resistant touch sensor button to strength product durability

•Side-mount headphone jack, USB port and built-in stereo speakers for multimedia convenience

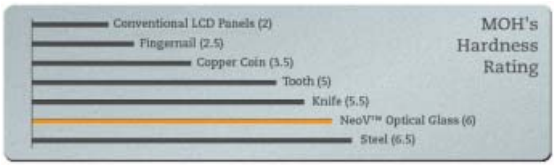
Special Feature

NeoV™ Optical Glass

Designed specifically to protect displays in multi-user and public environments, NeoV™ Optical Glass is the industry's most trusted hard glass technology

NeoV™ Optical Glass Benefits

- Display Panel Protection
- Anti-reflective & Scratch-resistant Coating
- Scratch-proof & Impact-safe
- High Brightness Transmittance
- Easy To Clean
- Professional Look & Feel



NeoV™ Optical Glass is the winner of "Best Innovation Award" from PC Magazine

Special Feature

Well-protected for Longer Lifetime

Vandal-resistant touch sensor buttons to strengthen product durability

- Mechanical buttons are prone to wear and tear from prolonged usage and exposure to heat, moisture, and other elements
- U-23, designed for public places, offices/ business and education environments, implemented with capacitive touch sensor buttons ensures longer product life without the fear of vandalism, harsh environmental conditions, or being operated very frequently

• Durable, long-lasting touch sensor controls won't wear out like mechanical buttons
